📍 Adelaide, SA, Australia 📁 Portfolio

Education

Harvard University, Cambridge, USA

Master of Computational Science and Engineering

August 2026

Admitted

University of Adelaide, Adelaide, Australia

July 2024 – Present

Bachelor of Mathematical Sciences

GPA: 6.857/7.0 Rank 1st

Ocean University of China, Qingdao, China

August 2022 – July 2024

Bachelor of Mathematics and Applied Mathematics

GPA: 3.95/4.0 Rank 1st/38

Research Profile

Undergraduate researcher in computer graphics, uncertainty-aware visual computing, and scientific computing. First author of an accepted Eurographics 2026 paper on object-aware uncertainty for active view selection in 3D Gaussian Splatting; presenting the work at the conference.

Selected Research Experience

OUGS: Object-aware Uncertainty for Next-Best-View in 3D Gaussian Splatting

Nov 2024 – Present

First Author — Accepted to Eurographics 2026

- Developed an object-aware uncertainty estimation pipeline for 3D Gaussian Splatting and used it to prioritize next-best views under occlusion and sparse-view constraints.
- Led the end-to-end research workflow, including method design, system implementation, experiments, ablations, and manuscript preparation for the accepted paper.

Human-AI Clinical Extraction Research

Mar 2025 – Present

First Author — Accepted to CHI 2026 Posters and Interactive Health 2026

- Built a privacy-preserving local LLM pipeline for ultrasound report extraction and co-designed clinician-facing interfaces for supervisory validation, resulting in two accepted first-author papers.

Awards & Honors

National Scholarship of China, Ministry of Education of the P.R.C. (< 1% of cohort)

2024

Mark Edwin Hurd Memorial Prize, University of Adelaide

2024

Interdisciplinary Contest in Modeling (ICM) Finalist, COMAP (< 2%)

2024

Summer Research Scholarship, University of Adelaide (< 5%)

2024

Outstanding Student, *Ocean University of China* (< 10%)

2023 & 2024

Professional Memberships

Professional Member, Association for Computing Machinery (ACM)

Apr 2026 – Present

Student Member, Institute of Electrical and Electronics Engineers (IEEE)

2024 – Present

Student Member, Eurographics Association

2026 – Present
